

Good News for Vegetarians

The Essential Vegetable Protein

A vegetarian diet is not only of great benefit for our spiritual practice but it's also very healthy for us. However, we must pay special attention to the balance of nutrition and make sure that we do not lack the much needed vegetable protein.

There are two types of protein: animal protein and vegetable protein. Soybeans, chick peas and snow peas are some of the sources of vegetable protein. Keeping a vegetarian diet does not simply mean eating fried vegetables. Protein should be included to complete the nourishment a person requires.

Dr. Miller was a vegetarian his entire life. He practiced medicine and treated the poor in the Republic of China for forty years. He believed that we only need to eat cereals, beans, fruit and vegetables to get all the nourishment we need to maintain good health. According to Dr. Miller, "Bean curd is 'meat' of no bones."

"As soybean is very nutritious; supposing if people could only eat one kind of food and they ate soybeans, they would be able to survive longer."

Preparing a vegetarian meal is the same as cooking a meal with meat, except that vegetarian protein ingredients such as vegetarian chicken chunks, vegetarian ham or vegetarian meat slices are used in its place. For example, instead of cooking "saute shredded meat with celery" or "seaweed soup with egg," we can now cook it as "sauteed shredded vegetarian meat with celery" or "seaweed soup with bean curd sheets."

If you are in countries where these vegetarian protein ingredients are not readily available, you can contact your local Center of The Supreme Master Ching Hai International Association and we will provide information on some main suppliers and vegetarian restaurants for your reference.

As to how to cook vegetarian food, you may refer to **The Supreme Kitchen** that's published by The Supreme Master Ching Hai International Association, or any other vegetarian cookbooks.
